

White Paper - Seagull with Knife (SEA)

1. Introduction

- What is SEA Coin?**
Seagull with Knife (\$SEA) is a meme coin built on the Solana blockchain, combining humor with a meaningful mission: raising awareness and contributing to ocean preservation. Through its unique blend of fun and purpose, SEA Coin aspires to create one of the largest crypto communities while making tangible contributions to environmental protection.
-

2. Mission and Vision

- Mission**
SEA Coin's mission is to entertain, inspire, and empower people to take action for ocean preservation. By integrating crypto with real-world impact, we aim to fund organizations dedicated to keeping our oceans clean and thriving.
 - Vision**
To become the leading crypto project that not only generates financial value but also drives positive environmental change.
-

3. Tokenomics

- Total Supply:** 1 billion tokens (1,000,000,000)
- Distribution:**

Allocation	Percentage	Details
Pre-sale	10%	For raising SOL to fund liquidity pools.
Team Wallet	20%	Locked until July 2025 to ensure trust and stability.
Liquidity Pools	12%	Two pools (Orca and Raydium) with 25 SOL each.
Treasury Reserve	8%	Locked until March for responsible management.
Token Burns	10%	Burned on the day of wallet unlock.
Sponsorships	10%	Supporting community growth and partnerships.
Help Team	5%	For moderators and other support roles.
Reserved Allocation	10%	Allocated for future initiatives and strategies.
Charity Donations	15%	Allocated for donations to ocean preservation organizations.

4. Roadmap

Phase	Details
Token Creation	SEA Coin launched on Solana.
Pre-sale	Raise 100 SOL to fund liquidity pools.

Phase	Details
Website and Social Media	Build a modern website and active social channels to engage the community.
Community Growth	Build the largest crypto community, fostering engagement and growth.
First 1,000 Holders	Achieve the milestone of 1,000 holders.
Liquidity Pools	Launch liquidity pools on Orca and Raydium for stable trading options.
Wallet Locks	Lock team wallets until July 2025 and treasury until March 2025.
Token Burns	Organize burns on the day of wallet unlock.
Charity Donations	Establish funding for ocean preservation organizations.

5. Charity Initiatives

- **How Donations Work**
15% of SEA's total token supply is allocated to donations, supporting ocean-focused organizations dedicated to preservation and clean-up initiatives.
 - **Target Organizations**
 - Ocean Conservancy
 - Project AWARE
 - Sea Shepherd
 - **Transparency**
Regular updates and reports will ensure that donations are trackable and impactful.
-

6. Security and Trust

- **Team Wallet Lock**
The team's tokens will be locked until July 2025 to demonstrate long-term commitment.
 - **Treasury Wallet Lock**
Treasury funds will be locked until March 2025 to ensure responsible management.
 - **Liquidity Pool Stability**
Both Orca and Raydium pools will be well-funded, ensuring price stability and robust trading options.
-

7. How to Buy SEA Coin

1. **Create a Wallet**
Download Phantom or another Solana-compatible wallet.
 2. **Acquire SOL**
Purchase SOL on an exchange or directly within your wallet.
 3. **Swap SOL for SEA**
Use Orca or Raydium to swap SOL for SEA tokens.
-

8. Why SEA Coin?

- **Community-Driven**
SEA Coin prioritizes community growth and involvement.
 - **Environmental Impact**
Every transaction contributes to ocean conservation.
 - **Long-Term Vision**
A roadmap and tokenomics designed for sustainable growth.
-

Next Steps

1. **Complete Pre-sale**
Successfully raise 100 SOL and launch liquidity pools.
2. **Expand Partnerships**
Collaborate with ocean-focused organizations for increased impact.
3. **Scale Community**
Grow the SEA Coin community and increase adoption.
